

2018 SWAT Shootout (May 5th -6th)

Dear Law Enforcement and Industry Support Company,

The Minnesota 3 Gun Group (MN3GG) is a shooting competition and organization body. It is known for operating efficient 3 gun and tactical shotgun matches, including the Nordic Components & Vortex Optics Tri-Gun which has the reputation of being a premier match.

The MN3GG crew is composed of Jay Schmitt, Jomar Villamor, and Chris Cazin. All are Law Enforcement Officers having 20+ years of Policing under their duty belts. Jay and Jomar are with the Minneapolis Police Department; Chris is with the New Hope Police Department. All 3 have also served in the capacity of SWAT Officers and are also tasked as Firearms Instructors who train Officers in multiple firearm platforms.

MN3GG understands the training value that competition shooting provides for Law Enforcement Officers. MN3GG have strived to invite Law Enforcement Officers to their matches and training events. In 2017, MN3GG took their efforts to another level by successfully hosting a SWAT Shootout event at the Forest Lake Sportsmen's Club in Minnesota.

The SWAT Shootout is a 4-man team event with 6 courses of fire that will challenge the teams in marksmanship, agility, and tactic. Law Enforcement Tactical Teams as well as Special Forces teams are invited to attend this event. We had 11 teams participate in the 2017 match, and all 11 are planning to return in 2018. Our goal is to have at least 20 teams involved in 2018 and we believe we will reach that as the word of the match has spread and we have been contacted by numerous Officers wanting to participate in 2018.

As an Industry Leader, we are seeking your support and sponsorship of this event. We hope to open a larger cross section of a market sample to you in the industry. This event will provide you with multiple avenues of marketing. Digital advertisement of your company on our social media will be one method. Banners at the site will be another, hopefully along with your participation, if possible, by having an industry representative present along with some products to showcase.

Please consider sponsoring and supporting this event at one of our levels, Breach, Bang or Clear. In the current climate of hate perpetuated on Law Enforcement throughout the nation, Officers can use any and all training to sharpen their skill set. The range staff is comprised of volunteers. All donations will be utilized in the events and or distributed as prizes to the competitors and match staff. Donations in blocks of 4, based on 4 person teams, is requested.

Respectfully,

Jay Schmitt
